PROFESSIONAL SUMMARY:

MERN Stack Developer with a strong foundation in JavaScript, React, Node.js, Next.js, and MongoDB. Skilled in REST APIs, authentication, and responsive UI design. Recently completed full-stack projects in collaboration using Git and agile practices. Proficient in building secure APIs, managing databases, and creating intuitive front-end interfaces. Quick learner with a problem-solving mindset, looking to kickstart my career as a Full Stack Developer and contribute to building scalable web solutions.

KEY COMPETENCIES

React js , Mongo Db, Node js	JWT, OAuth, Cookies	Adaptability & Quick Learning
Vercel, Netlify, Render	JavaScript(ES6+), Tailwind, Bootstrap	Effective Communication
Next.js , redux , Express	Problem-Solving & Debugging	Collaborative workflows in GitHub

PROFESSIONAL EXPERIENCE

Limenzy Technologies   **May, 2025 - Present**
MERN Stack Developer Intern

- Built and optimized front-end components using React.js and practiced Next.js for server-side rendering and routing.
- Assisted in designing and developing secure APIs with Express.js and integrated third-party APIs.
- Implemented CRUD operations with MongoDB for scalable data management.
- Wrote unit tests and debugged features to improve code reliability.
- Collaborated with senior developers to update the website and create new features.
- Contributed to a Job Application Tracker project using the MERN stack, enabling users to browse jobs, apply online, and receive alerts.

Talrop technology-based company   **April 2024 - June 2025**
Intern

- Gained exposure to corporate workflows, agile methodologies, and professional workplace culture.
- Observed and participated in project planning, execution, and monitoring under senior team guidance.
- Developed skills in communication, teamwork, and adaptability within a corporate environment.

ICT Academy of Kerala   **February 2024 - March 2024**
MERN Stack developer internship

- Worked on full stack development using the MERN stack.
- Designed and developed a Blood Bank Management System project to streamline donor and recipient data.
- Implemented CRUD operations with MongoDB and developed REST APIs with Express.js.
- Built responsive front-end components using React.js.
- Collaborated with team members to test, debug, and deploy features.

RELEVANT PROJECTS

Talmira
Job Application Tracker
- Built a web app for users to browse job postings, apply online, and receive custom alerts.
- Designed and implemented RESTful APIs for authentication, subscription plans, and job posting management.
- Developed secure user authentication with JWT and password hashing.
- Integrated role-based access control for admin, recruiter, and applicant functionalities.
- Built responsive React.js front-end with form validation and state management.
- Implemented MongoDB schemas for users, jobs, and applications.
- Collaborated with a teammate using Git & GitHub for version control and project workflow.

CareSync
Health Monitoring App
- Developed a cross-platform mobile app using Flutter with a Django backend.
- Built features for patient health monitoring, hospital management, and appointment booking.
- Integrated SQLyog/MySQL for structured database management of patients, doctors, and appointments.
- Designed and deployed a companion web application for accessibility across devices.
- Implemented REST APIs to connect the mobile app with backend services.
- Collaborated on testing, debugging, and improving user experience.

SavBlood
Blood Bank Management
- Built a full-stack web application to manage blood donors, recipients, and inventory.
- Implemented CRUD operations with MongoDB and developed REST APIs using Express.js.
- Designed a responsive React.js front-end with form validation for donor/recipient registration.
- Added features for blood availability tracking and request management.
- Ensured secure authentication and authorization for users and admins.
- Collaborated with team members to test, debug, and deploy the application.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application   2022-2025
KMO Arts And Science College

Python and Flutter FSD certification   July 2024 - March 2025
Regional Technologies , Calicut

MERN Stack developer intern   Feb 2024 - March 2024
ICT Academy of Kerala
